Dear Professor Marika vicziany,

Dr Sarmast, a Research Fellow of the Monash Asia Institute and the School of Music - Conservatorium submitted and presented his proposal project for the revival and promotion of music in Afghanistan for a discussion to my Office. Additionally, Dr Sarmast discussed his project with Homaun Nangialai, the director of our music training program in several occasions.

We believe that the implementation of such a project, which suggests a comprehensive and concrete program of action for rebuilding various types of music and music education in Afghanistan, is significantly important.

I am pleased to inform you that we are offering our strong support for this comprehensive project and are ready to work together with Dr Sarmast and Monash University to bring it into life.

Yours Sincerely,

Dr. S. M. Raheen
Minister of Information, Culture and Tourism
